01
PRACTICAL PLAYBOOK

What are you creating today?

Choose your outcome. Jump straight to the right prompts.

01 Photo polish
Make the photo clearer. Keep the property true.
001-015 / 15 prompts p. 04

02 Virtual staging
Help buyers picture the space. Keep the room intact.
016-030 / 15 prompts p. 09

03 Design concepts
Show the possibility. Label the proposal.
031-040 / 10 prompts p. 14

04 Video moves
Add motion with purpose. Keep the source honest.
041-060 / 20 prompts p. 18

05 Local stories
Put real places at the center of the story.
061-070 / 10 prompts p. 25

06 Agent branding
Make your identity consistent across every channel.
071-080 / 10 prompts p. 29

07 Social & ads
Turn verified facts into content worth stopping for.
081-095 / 15 prompts p. 33

08 Development
Present the vision without promising the outcome.
096-100 / 5 prompts p. 38

Better input.
Better starting point.

01 **UPLOAD**
Use the actual photo, clip, plan or brand asset.

02 **CUSTOMIZE**
Replace every [bracket] with your real details.

03 **GENERATE**
Copy the full prompt into a compatible tool.

04 **CHECK**
Compare the result with the source before publishing.

COPY THE INSTRUCTION. KEEP THE CONSTRAINTS.

The preservation instructions are part of each prompt. They help define the job, but they do not guarantee accuracy. Inspect the output; use conventional editing when exact fidelity matters.

Keep original media. Label virtual staging and proposed concepts. Verify applicable MLS, brokerage and platform rules. These are prompt templates, not universal slash commands; tool capabilities vary.

Adapted and rewritten from the user-supplied 4,000 AI Video Generation and Image Generation Shortcuts catalog. Campaign imagery and logo supplied by AiRE Estate. No tool-specific compatibility testing or website availability is implied.

Photo polish

Make the photo clearer. Keep the property true.

BRING Original property photos **001-003**

001
PROMPT

Balanced interior light

USE / A room looks too dark beside bright windows.

Edit the uploaded room photo to balance interior exposure and window brightness. Recover only visible detail; keep a natural photographic appearance without artificial HDR halos. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

002
PROMPT

Neutral white balance

USE / Mixed bulbs make a room look orange or blue.

Correct mixed lighting in this uploaded photo so white surfaces look neutral and actual wood, paint and fabric colors remain believable. Keep the existing light direction. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

003
PROMPT

Straight verticals

USE / Walls lean in a wide-angle photograph.

Correct camera perspective in the uploaded architectural photo so walls and doorframes appear vertical. Crop as needed; do not widen the room or invent missing edges. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check windows, verticals and materials.

Photo polish

Make the photo clearer. Keep the property true.

BRING Original property photos **004-006**

004
PROMPT

Lens distortion correction

USE / Wide-angle edges stretch furniture.

Reduce barrel distortion and edge stretching in the supplied photo. Keep realistic furniture proportions and room dimensions; prefer a modest crop to generative expansion. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

005
PROMPT

Natural detail recovery

USE / A usable photo is slightly soft.

Apply restrained sharpening and noise reduction to the uploaded photo. Preserve real textures and leave unreadable labels unreadable rather than inventing detail. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

006
PROMPT

Balanced window view

USE / A window view is visible but too bright.

Reduce the brightness of the visible window area using only the detail in the source image. If the view is fully clipped, leave it neutral rather than generating mountains, water or buildings. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check windows, verticals and materials.

Photo polish

Make the photo clearer. Keep the property true.

BRING Original property photos **007-009**

007
PROMPT

Exterior shadow balance

USE / Deep shade hides facade details.

Lift dark facade shadows modestly in the uploaded exterior photo while preserving the original time-of-day appearance, surface textures and sun direction. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

008
PROMPT

Glare reduction

USE / Reflections obscure a photographed feature.

Reduce distracting glare on [surface] in the supplied photo while retaining believable reflections. Do not reconstruct hidden objects or remove visible damage. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

009
PROMPT

Sky exposure balance

USE / A real sky needs tonal correction.

Balance the exposure and color of the existing sky in this exterior photo. Keep its actual clouds, weather and horizon; do not replace it or change the property's setting. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check windows, verticals and materials.

Photo polish

Make the photo clearer. Keep the property true.

BRING Original property photos **010-012**

010
PROMPT

Twilight concept

USE / You need a labeled evening marketing interpretation.

Create an evening interpretation of the supplied exterior photo with a restrained blue-hour sky and warm existing fixtures. Add no new lighting, landscaping or scenery. Include the caption 'AI twilight visualization'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

011
PROMPT

Kitchen finish fidelity

USE / Editing has made cabinetry look unnatural.

Adjust the uploaded kitchen photo to match the supplied finish-reference photos. Preserve the real cabinet color, countertop pattern, appliance finish and fixture positions. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

012
PROMPT

Bathroom reflection check

USE / You need a clean but truthful bathroom image.

Improve exposure and color in the uploaded bathroom photo. Preserve all fixtures and visible mirror reflections; do not add a photographer removal that invents hidden room details. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check windows, verticals and materials.

Photo polish

Make the photo clearer. Keep the property true.

BRING Original property photos **013-015**

013
PROMPT

Set-wide photo consistency

USE / Listing images have inconsistent color.

Match exposure, white balance and contrast across these supplied property photos. Use [reference photo] as the visual target while preserving each room's actual materials and natural light. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

014
PROMPT

Listing hero crop

USE / You need a stronger website cover photo.

Crop the uploaded exterior image to 16:9 with the entrance as the focal point and space for a headline at [position]. Stay within the source image; do not extend scenery or remove property features. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

015
PROMPT

Portrait social crop

USE / A landscape photo needs a vertical post.

Create a 4:5 composition from the supplied photo using a crop or neutral border. Preserve the key property features; do not use generative fill to invent additional rooms or surroundings. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check windows, verticals and materials.

Virtual staging

Help buyers picture the space. Keep the room intact.

BRING Empty-room photos + dimensions **016-018**

016
PROMPT

Living room staging

USE / An empty living room needs a furniture concept.

Virtually stage the supplied empty living room in [style] with a sofa, two chairs and a rug scaled to the supplied dimensions. Keep doors and walkways usable and add a 'Virtually staged' label. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

017
PROMPT

Primary bedroom staging

USE / You want to show a practical bedroom layout.

Add a [bed size] bed, two nightstands and restrained decor to the uploaded empty bedroom. Use [room dimensions] for scale and keep access to windows, closets and doors. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

018
PROMPT

Dining room staging

USE / Buyers need help visualizing dining space.

Stage this empty dining area with a [seat count]-seat table using the provided dimensions. Show realistic chair clearance and preserve the existing ceiling fixture. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check furniture scale and door clearance.

Virtual staging

Help buyers picture the space. Keep the room intact.

BRING Empty-room photos + dimensions **019-021**

019
PROMPT

Home office concept

USE / A room could accommodate desk work.

Add a modest desk, task chair and storage to this room using its actual dimensions. Keep the window unobstructed and do not suggest a permitted use or bedroom classification. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

020
PROMPT

Studio zoning

USE / One open room needs a legible layout.

Virtually furnish this studio with separate sleeping, seating and dining zones using only movable furniture. Respect the provided dimensions and maintain open paths to the exit. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

021
PROMPT

Small-room scale

USE / Staging has made a small room look oversized.

Stage this room with compact furniture sized to [dimensions]. Keep the original camera angle and avoid miniature furniture or wide-angle expansion that exaggerates space. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check furniture scale and door clearance.

Virtual staging

Help buyers picture the space. Keep the room intact.

BRING Empty-room photos + dimensions **022-024**

022
PROMPT

Mountain retreat living room

USE / A mountain listing needs a coherent furnishing style.

Add restrained mountain-modern furnishings to this empty room: wool textures, warm wood and a simple seating group. Preserve the real fireplace and window view. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

023
PROMPT

Condo balcony seating

USE / You want to illustrate a small outdoor arrangement.

Add two compact chairs and one small table to this balcony using [dimensions]. Keep the railing, exit route and actual view unchanged. Do not add a grill or hanging installation. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

024
PROMPT

Patio entertaining layout

USE / An existing patio needs furnishing ideas.

Furnish the existing patio with a correctly scaled dining set and movable lounge chairs. Do not add a deck, fire pit, pool, roof or landscaping. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check furniture scale and door clearance.

Virtual staging

Help buyers picture the space. Keep the room intact.

BRING Empty-room photos + dimensions **025-027**

025
PROMPT

Bonus room flexibility

USE / An unclassified room needs a furnishing example.

Show this existing bonus room as a reading and hobby space using movable furnishings only. Preserve every fixed feature and avoid labeling it a legal bedroom. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

026
PROMPT

Furniture layout comparison

USE / A seller wants to compare two arrangements.

Create two separate staged versions of this room: conversation-focused and TV-focused. Use the same furniture scale, source angle and room dimensions in each. Label both 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

027
PROMPT

Furniture style comparison

USE / You need style options for the same room.

Produce separate [style A] and [style B] furnishing concepts from this photo. Keep the same furniture footprint and all permanent finishes unchanged. Label each 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check furniture scale and door clearance.

Virtual staging

Help buyers picture the space. Keep the room intact.

BRING Empty-room photos + dimensions **028-030**

028
PROMPT

Rug and seating scale

USE / You need to check a seating arrangement.

Overlay a staging concept with a [rug size] rug and furniture sized to the supplied measurements. Keep plausible walking clearances and do not claim the image is a measured plan. Label 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

029
PROMPT

Move-out visualization

USE / A seller wants to imagine the room without furniture.

Create a clearly labeled 'AI furniture-removal concept' from this photo by removing movable furnishings. Do not present inferred surfaces hidden behind furniture as verified property condition. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

030
PROMPT

Whole-home staging consistency

USE / Several empty rooms need one visual style.

Virtually stage these supplied room photos with a consistent [style] palette and realistic furniture sizes. Keep repeated furnishings consistent across views of the same room. Label every image 'Virtually staged'. Preserve all permanent property features, dimensions, defects and actual surroundings. Do not invent amenities or conceal condition.

QUALITY CHECK Check furniture scale and door clearance.

Design concepts

Show the possibility. Label the proposal.

BRING Current photo + finish brief **031-033**

031
PROMPT

Interior paint preview

USE / A seller wants to explore paint colors.

Create separate previews of [paint colors] on the existing walls in this photo. Keep trim, flooring and furnishings unchanged and label each 'Design concept - not current condition'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

032
PROMPT

Cabinet color preview

USE / You want to compare cosmetic kitchen changes.

Recolor only the existing cabinet fronts to [color]. Keep their geometry, hardware and appliance locations unchanged. Label 'Design concept - not current condition'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

033
PROMPT

Countertop concept

USE / A client is considering a finish update.

Replace only the visible countertop finish with [material] as a visual concept. Keep its thickness and layout realistic; do not imply price or installation feasibility. Label 'Design concept'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

QUALITY CHECK Keep current condition separate from concepts.

Design concepts

Show the possibility. Label the proposal.

BRING Current photo + finish brief **034-036**

034
PROMPT

Flooring comparison

USE / You need to visualize alternate finishes.

Create separate views of [flooring A] and [flooring B] in this room. Preserve floor levels, walls and perspective; keep plank scale believable. Label each 'Design concept'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

035
PROMPT

Bathroom finish refresh

USE / You want to show a cosmetic alternative.

Visualize [tile, paint and vanity finish] without relocating plumbing, altering the footprint or adding fixtures. Label 'Design concept - feasibility not assessed'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

036
PROMPT

Exterior paint preview

USE / A homeowner is exploring facade colors.

Recolor only the specified painted exterior surfaces to [palette]. Preserve brick, stone, roof, windows and landscaping. Label 'Design concept - not current condition'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

QUALITY CHECK Keep current condition separate from concepts.

Design concepts

Show the possibility. Label the proposal.

BRING Current photo + finish brief **037-039**

037
PROMPT

Landscape concept

USE / A seller wants an outdoor design illustration.

Create a landscape concept inside the explicitly marked area using [planting brief]. Keep property boundaries unspecified unless supplied and preserve structures. Label 'Landscape concept - not installed'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

038
PROMPT

Lighting design concept

USE / A client wants to compare fixture styles.

Show [fixture style] only at the marked existing fixture locations. Preserve ceiling height and architecture; do not imply electrical feasibility. Label 'Lighting concept'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

039
PROMPT

Fireplace finish concept

USE / You want to preview a cosmetic focal-point update.

Change only the fireplace surround finish to [material]. Keep its opening, hearth dimensions and nearby clearances unchanged. Label 'Design concept - technical review required'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

QUALITY CHECK Keep current condition separate from concepts.

Design concepts

Show the possibility. Label the proposal.

BRING Current photo + finish brief **040-040**

040
PROMPT

Renovation comparison board

USE / A seller needs a clearly separated vision board.

Create a side-by-side board using the unaltered source photo on the left and the supplied renovation concept on the right. Label them 'Current photo' and 'Proposed concept'; never blend the two. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

BEFORE YOU PUBLISH

Keep current condition separate from concepts.

Keep the original. Compare the result. Correct anything the model invented.

QUALITY CHECK Keep current condition separate from concepts.

Video moves

Add motion with purpose. Keep the source honest.

BRING Original photos or video clips **041-043**

041
PROMPT

Entrance push-in

USE / You want a calm opening shot.

Animate this exterior photo as a five-second slow push toward the visible entrance. Use only modest motion within the available image and keep the building geometry stable. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

042
PROMPT

Exterior pull-back

USE / You want a wider-feeling reveal.

Create a five-second gentle pull-back ending at the original photo's full framing. Start with a crop so the move never requires invented surroundings. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

043
PROMPT

Living room pan

USE / A wide room photo can become a short clip.

Create a five-second slow left-to-right pan entirely within this source photo. Maintain stable walls, furniture and window views with no morphing. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

QUALITY CHECK Watch for warped walls and invented views.

Video moves

Add motion with purpose. Keep the source honest.

BRING Original photos or video clips 044-046

044
PROMPT

Reverse room pan

USE / A sequence needs a complementary direction.

Animate a five-second right-to-left pan across the supplied dining-room photo. Stay within its visible boundaries and keep the movement slow and level. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

045
PROMPT

Facade tilt-up

USE / You want to emphasize existing vertical architecture.

Make a five-second controlled upward tilt from the visible lower facade to the roofline. Keep the entire move within the supplied image and preserve straight lines. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

046
PROMPT

Staircase tilt

USE / An architectural detail needs a restrained reveal.

Create a five-second slow upward tilt along the visible staircase. Preserve the number and shape of steps, railing and landings; do not reveal unseen floors. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

QUALITY CHECK Watch for warped walls and invented views.

Video moves

Add motion with purpose. Keep the source honest.

BRING Original photos or video clips 047-049

047
PROMPT

Kitchen detail slide

USE / You want a feature cutaway.

Use a five-second subtle lateral slide across the visible countertop and cabinet detail. Keep appliance shapes, handles and material patterns fixed. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

048
PROMPT

Fireplace push-in

USE / A real fireplace is a focal point.

Make a five-second gentle push toward the fireplace in this photo. Keep an unlit fireplace unlit; preserve the surround, room layout and all visible features. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

049
PROMPT

Window-view reveal

USE / You have an authentic view worth highlighting.

Animate a five-second move from a crop of the room toward the actual visible window view. Do not enlarge the view, remove obstructions or replace the landscape. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

QUALITY CHECK Watch for warped walls and invented views.

Video moves

Add motion with purpose. Keep the source honest.

BRING Original photos or video clips **050-052**

050
PROMPT

Balcony perspective

USE / You want to show an existing outdoor outlook.

Create a five-second subtle push from this balcony photo toward its real outlook. Keep railings fixed and maintain the original height and view without imagined scenery. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

051
PROMPT

Aerial rise

USE / You already have real aerial footage.

Edit the uploaded aerial clip to retain a smooth five-second rising segment. Stabilize modestly, keep the real sequence and do not synthesize land, boundaries or neighboring buildings. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

052
PROMPT

Aerial crop reveal

USE / You only have a genuine aerial still.

Animate a five-second crop-to-full-frame reveal from this real aerial photo to suggest rising distance. Do not generate a new overhead viewpoint or scenery beyond the photo. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

QUALITY CHECK Watch for warped walls and invented views.

Video moves

Add motion with purpose. Keep the source honest.

BRING Original photos or video clips **053-055**

053
PROMPT

Verified orbit segment

USE / You have an actual orbit clip.

Select and smooth a five-second arc from the uploaded drone orbit footage. Preserve actual motion and geometry rather than synthesizing an unseen side of the property. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

054
PROMPT

Hallway approach

USE / A hallway photo offers visible depth.

Create a five-second very shallow forward move within this hallway image. Stop before any doorway would require inventing the next room; keep door positions unchanged. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

055
PROMPT

Detail focus shift

USE / You want to guide attention in one frame.

Animate a subtle five-second focus change between [visible feature A] and [visible feature B] in the supplied image. Preserve both features and avoid fabricating sharp detail. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

QUALITY CHECK Watch for warped walls and invented views.

Video moves

Add motion with purpose. Keep the source honest.

BRING Original photos or video clips **056-058**

056
PROMPT

Staged-room dissolve

USE / You have an original and a matching staged image.

Create a six-second locked-frame dissolve from the original empty room to its approved staged version. Keep a 'Virtually staged' label visible whenever staged furnishings appear. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

057
PROMPT

Design concept transition

USE / You want to show a proposed update clearly.

Create a six-second dissolve between the supplied current photo and approved design concept. Keep the camera fixed; label the first 'Current' and the second 'Proposed concept'. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

058
PROMPT

Three-shot listing teaser

USE / You need a concise property introduction.

Build a 15-second vertical sequence from the three supplied photos: exterior, main room and standout detail. Use five seconds each, restrained crop motion and the exact supplied address text. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

QUALITY CHECK Watch for warped walls and invented views.

Video moves

Add motion with purpose. Keep the source honest.

BRING Original photos or video clips **059-060**

059
PROMPT

Photo-sequence walkthrough

USE / You have room photos but no continuous tour.

Create a 20-second sequence from the supplied room photos in the order [sequence]. Use clean cuts and gentle crops; do not fabricate connecting spaces or imply a verified floor plan. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

060
PROMPT

Seamless feature loop

USE / A screen or social post needs repeatable motion.

Turn this detail photo into a six-second loop with a very gentle crop-in and crop-out returning to the opening frame. Keep the architecture and objects completely stable. Use only the supplied media; no invented rooms, views or features. Keep edited or conceptual content clearly labeled.

BEFORE YOU PUBLISH

Watch for warped walls and invented views.

Keep the original. Compare the result. Correct anything the model invented.

QUALITY CHECK Watch for warped walls and invented views.

Local stories

Put real places at the center of the story.

BRING Real local photos + verified facts **061-063**

061
PROMPT

Neighborhood introduction

USE / You have authentic local photographs.

Design a neighborhood introduction using only the supplied local photos and verified place names. Use [headline] and [brand palette]; do not invent landmarks or suggest who belongs in the area. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

062
PROMPT

Trail-access story

USE / You want to feature a verified nearby trail.

Create a 9:16 story using this actual trail photo and the supplied trail name. Include [verified distance and measurement method] only if provided; otherwise omit proximity claims. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

063
PROMPT

Village dining feature

USE / You have permission to feature a local business.

Design a 4:5 local dining spotlight using the supplied business photo, approved name and verified details. Keep its storefront unchanged and do not invent endorsements or opening hours. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Verify names, locations and proximity claims.

Local stories

Put real places at the center of the story.

BRING Real local photos + verified facts **064-066**

064
PROMPT

Ski-area lifestyle post

USE / You want a mountain lifestyle visual.

Create a branded post from this real ski-area photo with [exact headline]. Do not imply the featured property is ski-in/ski-out or has resort access unless explicitly verified. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

065
PROMPT

Seasonal neighborhood carousel

USE / You have authentic photos from different seasons.

Create four separate slides using the provided spring, summer, fall and winter photos with accurate location labels. Keep seasons attached to their real photos rather than generating listing conditions. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

066
PROMPT

Community event card

USE / You have verified event information.

Design an event card with the supplied image and exact [event, date, time, location and organizer]. Leave unknown fields blank and avoid implying sponsorship without supplied approval. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Verify names, locations and proximity claims.

Local stories

Put real places at the center of the story.

BRING Real local photos + verified facts **067-069**

067
PROMPT

Park feature

USE / You want to highlight a real public space.

Create an editorial park spotlight from these actual photos and [verified park name]. Use amenity-focused language without demographic descriptions or unsupported safety claims. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

068
PROMPT

Route illustration

USE / You have a verified route map.

Style this supplied route map for a social post while preserving every road, label and route. Include only the provided distance and travel-time basis; do not calculate or invent them. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

069
PROMPT

Mountain lifestyle mood board

USE / You need general brand imagery.

Create a mountain-lifestyle mood board with [activities and palette] as clearly illustrative brand imagery. Do not portray it as the view, amenities or surroundings of a specific listing. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Verify names, locations and proximity claims.

Local stories

Put real places at the center of the story.

BRING Real local photos + verified facts **070-070**

070
PROMPT

Local detail series

USE / You want recognizable neighborhood texture.

Create three separate social graphics from the supplied local detail photos with exact place labels and consistent typography. Preserve actual scenes and omit unsupported market or lifestyle claims. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

BEFORE YOU PUBLISH

Verify names, locations and proximity claims.

Keep the original. Compare the result. Correct anything the model invented.

QUALITY CHECK Verify names, locations and proximity claims.

Agent branding

Make your identity consistent across every channel.

BRING Your portrait + official brand assets **071-073**

071
PROMPT

Professional portrait refresh

USE / Your existing headshot needs polish.

Retouch the supplied headshot lightly for balanced light and natural skin texture. Preserve my identity, age, facial structure, body shape and distinguishing features; do not beautify into another person. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

072
PROMPT

Neutral portrait background

USE / You need a versatile profile image.

Replace only the background of my supplied headshot with a neutral [color] studio backdrop. Match edge lighting naturally and preserve my face, hair, body and clothing exactly. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

073
PROMPT

Editorial office portrait

USE / You want a clearly styled brand portrait.

Place my supplied portrait against a tasteful fictional office background with natural matching light. Preserve identity and outfit; do not imply the office is a real brokerage location. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Keep faces, logos and credentials accurate.

Agent branding

Make your identity consistent across every channel.

BRING Your portrait + official brand assets **074-076**

074
PROMPT

Mountain brand portrait

USE / You need lifestyle-oriented branding.

Use my supplied portrait with a clearly illustrative mountain backdrop and restrained [palette] accents. Preserve my identity; do not imply the backdrop is a listing or a specific place. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

075
PROMPT

Square avatar crop

USE / You need consistent profile crops.

Create a square crop of my supplied headshot with centered eyes and comfortable headroom. Keep my appearance unchanged and avoid generating missing shoulders or hair. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

076
PROMPT

Speaker announcement

USE / You have a confirmed speaking engagement.

Design a speaker card using my supplied headshot, official logo and exact [name, credentials, session, date and venue]. Preserve all assets and do not add affiliations or awards. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Keep faces, logos and credentials accurate.

Agent branding

Make your identity consistent across every channel.

BRING Your portrait + official brand assets **077-079**

077
PROMPT

Agent introduction card

USE / You want a concise personal introduction.

Create a 4:5 agent introduction with the supplied headshot, official logo and exact [name, role, service area and contact]. Use clean typography and no invented sales record. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

078
PROMPT

Video title backdrop

USE / You need a background for an agent-led video.

Create a clean 9:16 branded backdrop using [palette] with open space at [avatar position] and a readable title zone. Use the supplied logo exactly; add no synthetic person. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

079
PROMPT

Email header image

USE / You need a restrained branded banner.

Create a 3:1 email header from the supplied approved brand imagery and official logo. Keep text limited to [exact phrase]; do not add contact details that were not provided. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Keep faces, logos and credentials accurate.

Agent branding

Make your identity consistent across every channel.

BRING Your portrait + official brand assets **080-080**

080
PROMPT

Brand image system

USE / Your posts need a coherent visual language.

Create three separate brand-image templates for [education, local insight and listing news]. Use the supplied logo, palette and type references consistently, with editable-looking blank text zones. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

BEFORE YOU PUBLISH

Keep faces, logos and credentials accurate.

Keep the original. Compare the result. Correct anything the model invented.

QUALITY CHECK Keep faces, logos and credentials accurate.

Social & ads

Turn verified facts into content worth stopping for.

BRING Property photos + approved copy **081-083**

081
PROMPT

Just-listed card

USE / You have verified listing facts.

Design a 4:5 just-listed graphic using the supplied property photo and exact [address, price, beds, baths and area]. Include only supplied facts and preserve the official logo. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

082
PROMPT

Open-house announcement

USE / You have confirmed event details.

Create a 9:16 open-house graphic from the actual property photo with exact [address, date, time zone, hours and host]. Make the date and time prominent; do not invent access instructions. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

083
PROMPT

Price-update graphic

USE / An authorized price change needs announcing.

Create a clean price-update graphic using the supplied photo and exact new price [price]. Include a previous price only if supplied and approved; avoid unsupported urgency claims. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Proof every price, date, number and claim.

Social & ads

Turn verified facts into content worth stopping for.

BRING Property photos + approved copy **084-086**

084
PROMPT

Property feature carousel

USE / You want to highlight verified attributes.

Create five separate slides using the matching supplied photos and verified features [list]. Use one feature per slide and preserve original property details and supplied branding. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

085
PROMPT

Listing fact sheet

USE / You need a concise shareable overview.

Design a one-page property fact sheet from the supplied photos and verified information. Keep unknown fields out; do not infer square footage, school assignment or permitted uses. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

086
PROMPT

Market-stat graphic

USE / You have a current source table.

Create a chart-style social graphic from the supplied dataset only. Preserve values and units; show geography, reporting period and source. Do not invent trends, forecasts or missing data. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Proof every price, date, number and claim.

Social & ads

Turn verified facts into content worth stopping for.

BRING Property photos + approved copy **087-089**

087
PROMPT

Buyer education carousel

USE / You have approved educational copy.

Turn the supplied buyer-education text into five separate readable slides. Preserve its meaning, avoid adding financial claims, and use illustrative icons instead of fictitious property facts. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

088
PROMPT

Seller preparation checklist

USE / You want a useful seller post.

Create a 4:5 checklist graphic from these approved preparation steps [list]. Use concise typography and the supplied logo; add no guaranteed sale-price or time-to-sale claims. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

089
PROMPT

Testimonial card

USE / You have permission to use a genuine review.

Design a testimonial graphic using this exact approved quote and attribution. Do not rewrite praise, invent a rating or add a client portrait. Use the supplied brand assets. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Proof every price, date, number and claim.

Social & ads

Turn verified facts into content worth stopping for.

BRING Property photos + approved copy **090-092**

090
PROMPT

Sold announcement

USE / You have verified closing information.

Create a sold graphic using the supplied photo and approved closing details. Include price, timing or representation only if provided; do not imply both-side representation without confirmation. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

091
PROMPT

Listing comparison card

USE / You have verified facts for two properties.

Design a balanced comparison using the supplied photos and facts in matching columns. Preserve units and dates; show unknowns as 'Not supplied' rather than guessing. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

092
PROMPT

FAQ graphic

USE / You have an approved answer to a common question.

Create a clear question-and-answer graphic using [exact question and approved answer]. Keep the answer readable, preserve qualifications and do not add legal or financing guidance. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Proof every price, date, number and claim.

Social & ads

Turn verified facts into content worth stopping for.

BRING Property photos + approved copy **093-095**

093
PROMPT

Agent recruitment graphic

USE / You have approved brokerage information.

Design a recruitment post using the official supplied branding and verified benefits [list]. Do not invent income, compensation, fee savings or guarantees. Use [exact CTA]. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

094
PROMPT

Course promotion graphic

USE / You have approved course details.

Create an AiRE Estate promotional graphic from the supplied official assets and verified [course title, contents, price if applicable and URL]. Do not imply unconfirmed lessons or bonuses are included. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

095
PROMPT

Reel cover

USE / You need a strong cover for an existing video.

Design a 9:16 cover using a supplied video still, the exact headline [headline] and official logo. Keep key text away from interface edges and avoid claims absent from the video. Preserve supplied logos and exact text. If an essential asset or fact is missing, ask for it instead of inventing it.

QUALITY CHECK Proof every price, date, number and claim.

Development

Present the vision without promising the outcome.

BRING Plans, dates + approved renderings **096-098**

096
PROMPT

Massing concept

USE / You want an early design illustration.

Create a simple massing visualization from the supplied site diagram and dimensions. Preserve the diagram's limits and label 'Concept only - not an approved plan'. Do not infer zoning or development rights. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

097
PROMPT

Approved-render presentation

USE / You have a supplied project rendering.

Lay out the supplied approved rendering with exact project name and status text. Preserve the rendering and label 'Architectural rendering'; add no unverified delivery date, inventory or amenity. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

098
PROMPT

Construction progress comparison

USE / You have dated site photos.

Create a side-by-side progress board from the actual dated photos. Preserve each photo, show its supplied date and avoid generating intermediate construction stages or future completion. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

QUALITY CHECK Verify dimensions, status and concept labels.

Development

Present the vision without promising the outcome.

BRING Plans, dates + approved renderings **099-100**

099
PROMPT

Conceptual floor-plan styling

USE / You have a measured layout to reference.

Create a presentation illustration from the supplied measured plan. Preserve every provided dimension, opening and room label; do not infer missing measurements. Label 'Presentation illustration - verify against source plan'. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

100
PROMPT

Build-sequence animation

USE / You have approved stage renderings.

Animate a short sequence between the supplied construction-stage renderings in their verified order. Keep a 'Concept animation' label visible and do not invent engineering methods, schedule or completed conditions. Keep the supplied reference geometry and make the concept label readable. Do not present this as current property condition.

BEFORE YOU PUBLISH

Verify dimensions, status and concept labels.

Keep the original. Compare the result. Correct anything the model invented.

QUALITY CHECK Verify dimensions, status and concept labels.
